The NEW spot™ App

Version 1.0

Quick Start Guide

SPOT App - v1.0

With the SPOT App, you can easily view your SPOT messages,
track progress points or monitor assets on your smartphone or tablet.

SPOT App Features

▶ Log in to your SPOT Account in the SPOT App to display your SPOT messages and GPS locations on a smartphone or a tablet. You can view your SPOT messages on a standard map, a satellite view map, or in a list view.

▶ You can filter your SPOT messages by SPOT Device, Message Type, or Date Range.

▶ Easily zoom to the most recent SPOT message or tap on a SPOT Message for more details.

▶ SPOT messages downloaded to the app remain on your smart device until you delete them.
   - Option to auto-delete SPOT messages by time or quantity within the app
   - Deleted messages are removed from view in the SPOT App but remain in your SPOT account for 30 days

▶ Set how often the SPOT App checks for new SPOT messages in your SPOT Account.

▶ Choose a GPS coordinate display format (decimal or seconds) for GPS locations.
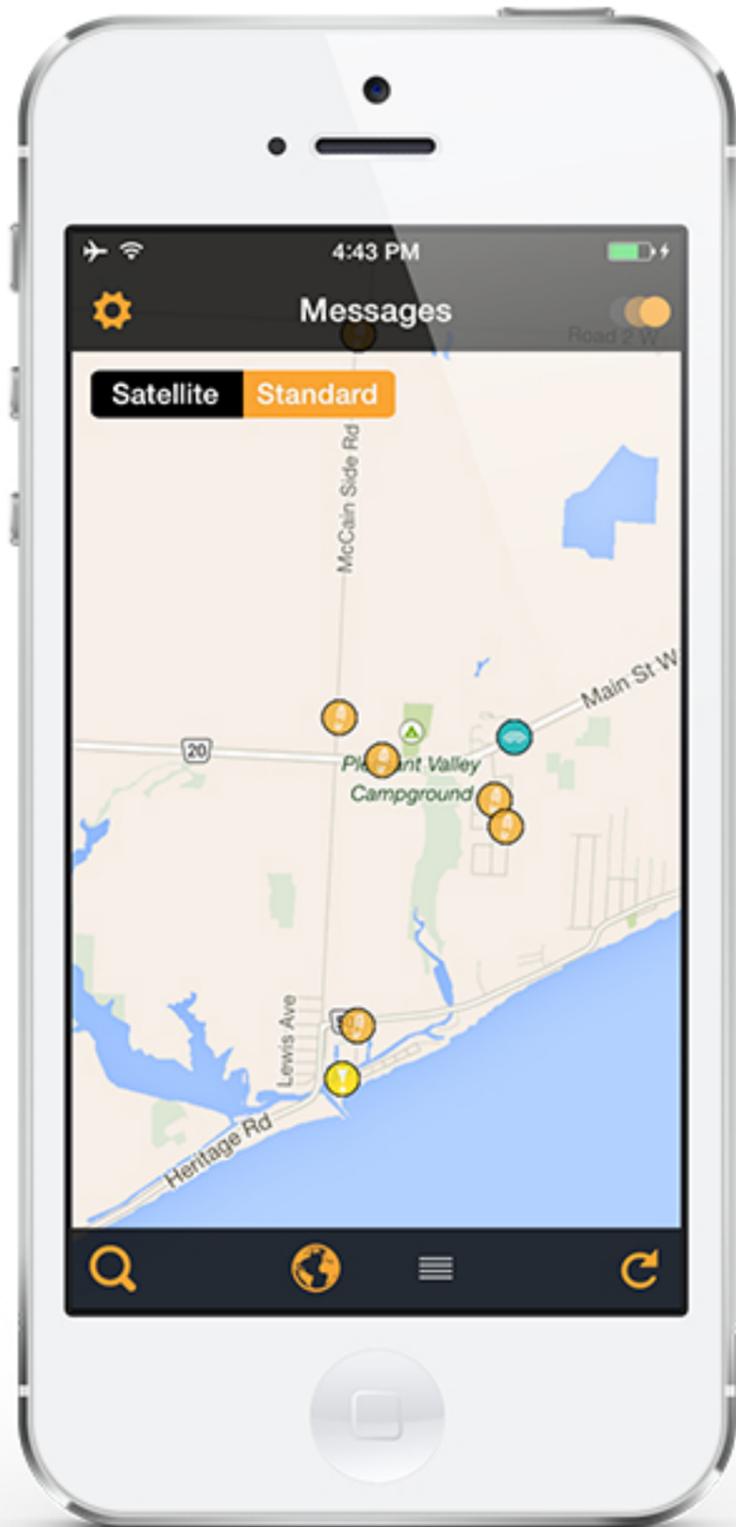

SPOT App - Login

Account Login Screen

Login to the SPOT App with your FindMeSPOT.com account credentials (SPOT Account)
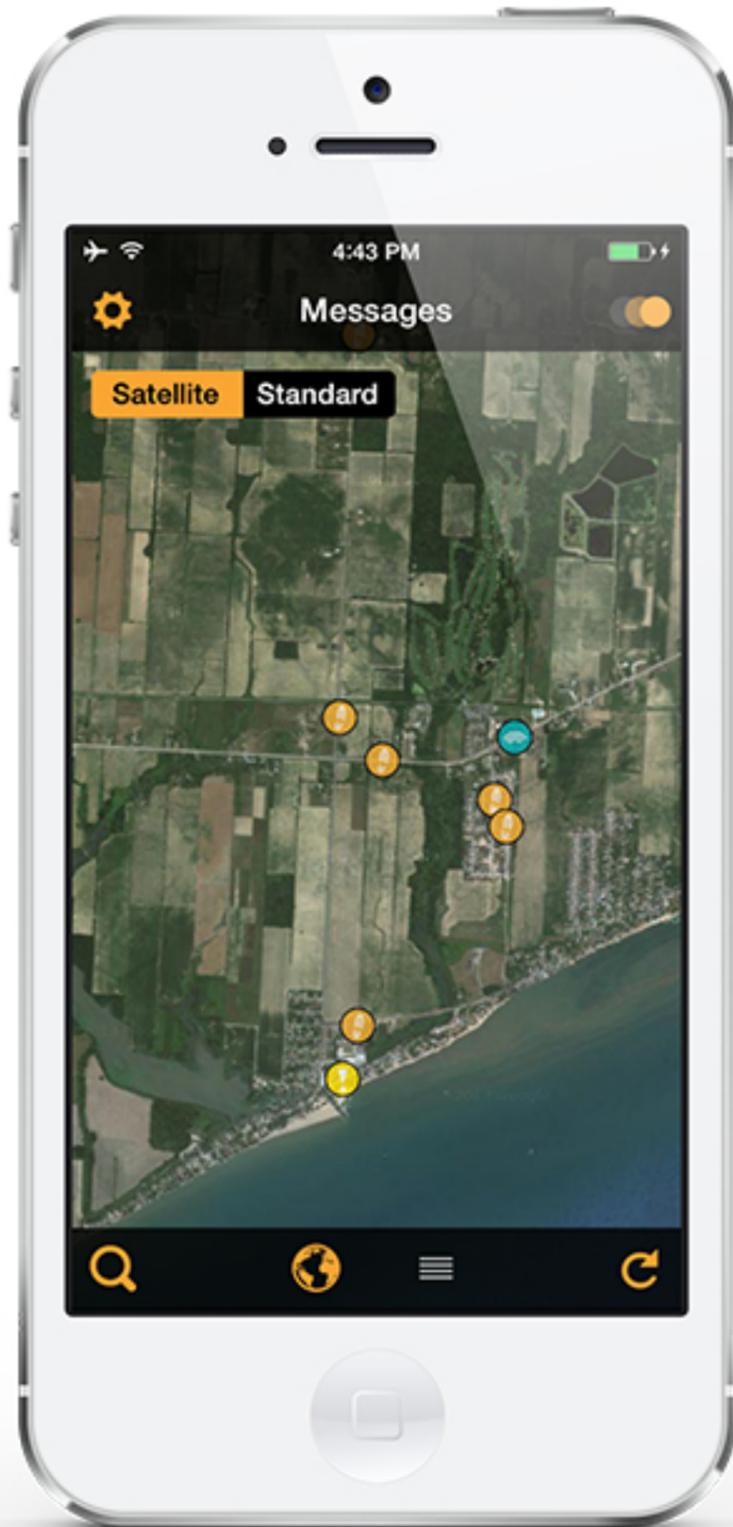

SPOT App - Messages

Standard Map View

Messages Screen

▸ This is the default screen you will see once you have logged in

▸ Upon initial launch, SPOT app will access the last 30 days of messages in your SPOT Account

▸ Messages downloaded through the app will remain on your phone/device until deleted

▸ You can pinch to zoom in or out to get more detail on location or reveal additional messages around the area of interest

SPOT App - Messages

Messages Screen

Settings Button
- Takes you to the *Settings* screen

Filter Button
- Takes you to the *Filter* screen

Satellite | Standard
Map Type Button
- Select satellite view or standard map

Message Marker
- Specific to message type
- Tap for more details

Map/List Button
- Toggle between map and list view for your SPOT messages

Refresh Button
- Refresh map manually to check for new SPOT messages/points

Zoom to last SPOT Message
- Tap to show last message received in your account

Satellite Map View

Satellite | Standard
Messages
4:43 PM

spot

SPOT App - Messages

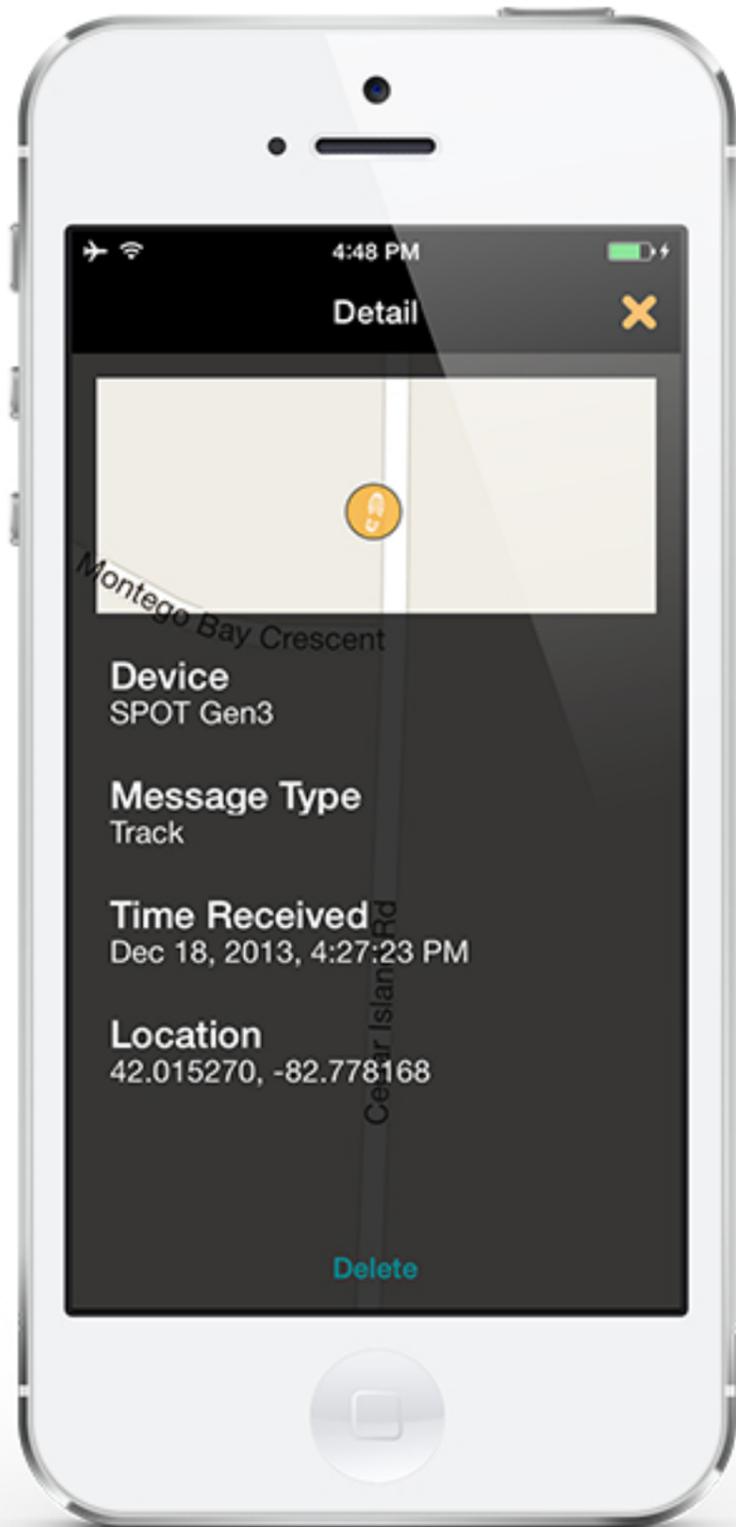

List View

Messages Screen

▶ Scroll through all messages

▶ Most recent at the top

▶ Tap on a message for more details

SPOT App - Messages

Messages - Details

▸ Tap on a message for more details (either in map view or list view)

▸ Provides the SPOT device name, message type, GPS location, and message text (if applicable)

SPOT App - Settings

Settings Screen

▶ **Messages Button**

- Set the frequency at which the SPOT App will check for new messages (1, 5, or 10 minutes)

Note: Higher frequency = less battery life & more data usage for smartphone/tablet

▶ **GPS Format Button**

- Choose Decimal or Seconds for formatting of detailed displays

▶ **Auto Delete Button (optional)**

- App can auto-delete messages from view based on a time metric or quantity of messages. Auto-deleting removes messages from the app but not your SPOT Account. SPOT messages in your account remain for up to 30 days.

▶ **About Button**

- Details about SPOT
- App version number
- Contact details for app feedback – spotappfeedback@findmespot.com

▶ **Log Out Button**
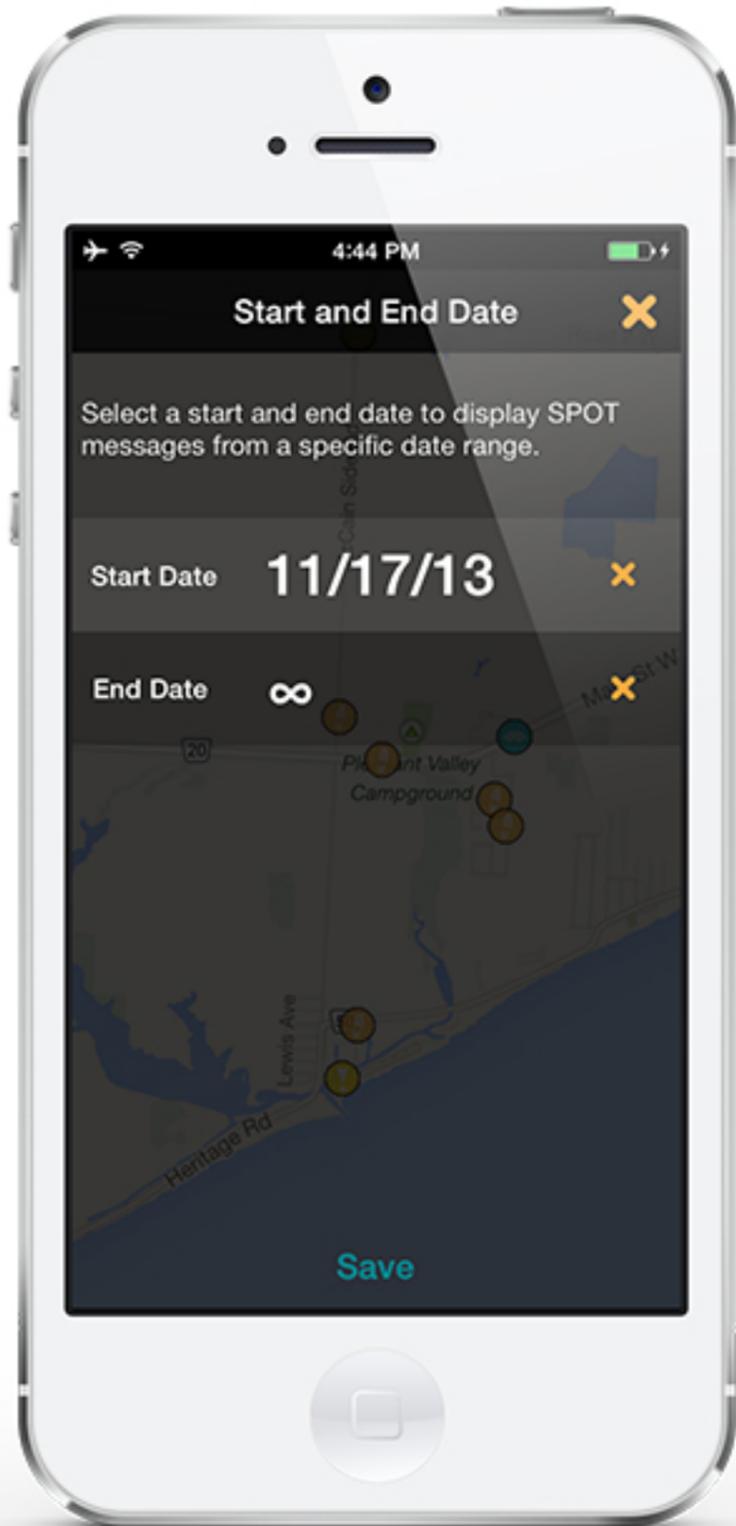

- Log out of the SPOT App

SPOT App - Filters

Filters Screen

▶ This screen can be accessed by tapping on the *Filters* button on the map or list views

▶ You can filter your SPOT messages to be displayed within the app by:

- **Start and End date** (choose a range)

- **Message Type** (select the types of messages to be displayed)

- **Device** (choose the SPOT devices in your account you want to display within the app)

▶ This default setting will display everything in your account

SPOT App - Filters

Start and End Date Filter

Select a start and end date to display
SPOT messages from a specific date range
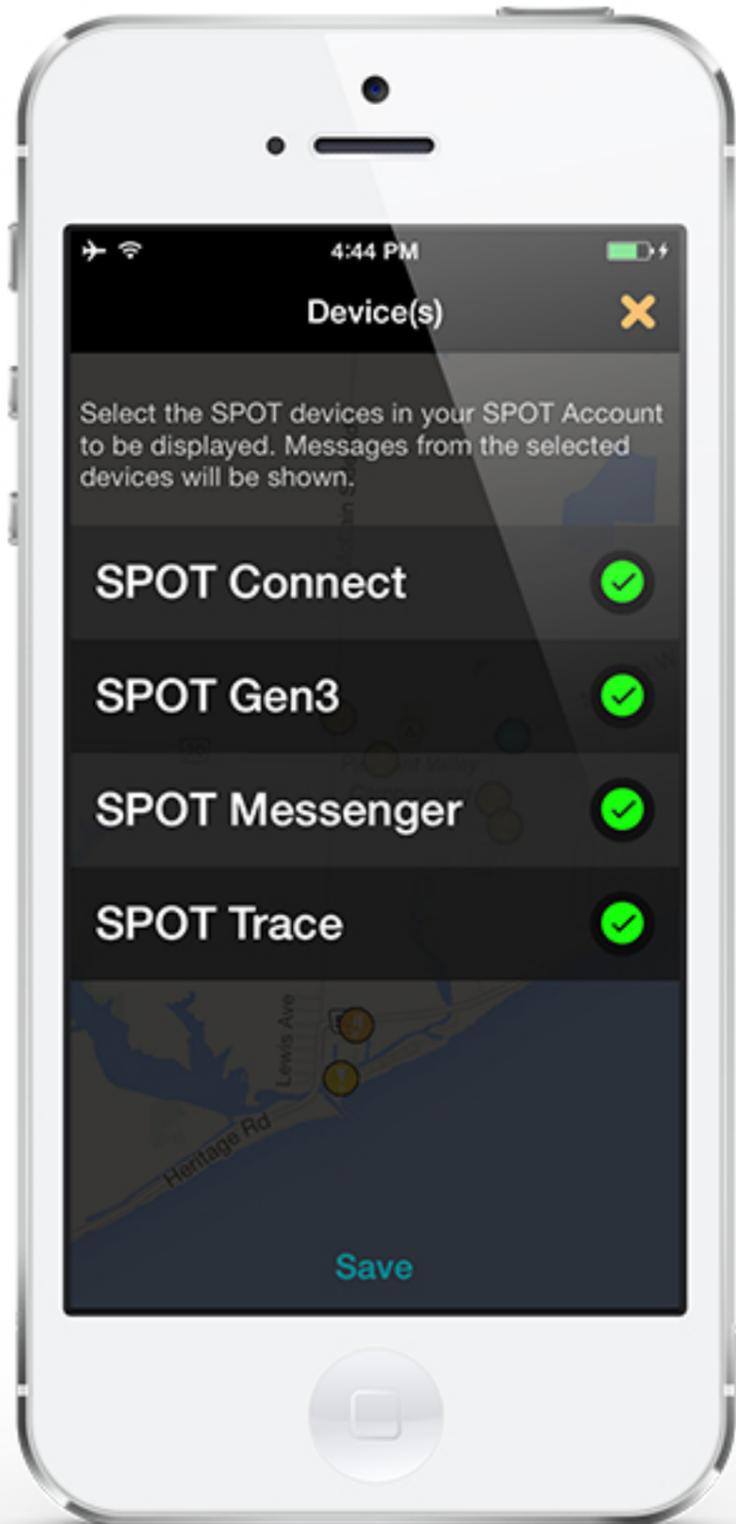

SPOT App - Filters

Message Type Filter

Select the SPOT message types to be displayed

- Available message types determined by the SPOT Devices in your SPOT Account

- Check or uncheck message types

SPOT App - Filters

Device(s) Filter

Select the SPOT devices in your Account to be displayed

Messages from the selected devices will be shown

- Available devices determined by the SPOT Devices in your SPOT Account

- Check or uncheck devices

SPOT App - Tips & Tricks

▸ For ease of use, the SPOT App will remember your login details.
To log out of the app, click on the *Settings* button and choose *Log Out*.

▸ The SPOT App can access the last 30 days of messages in your SPOT account.
Until deleted, messages downloaded through this app will remain on your phone/device allowing you to access your historical data.

▸ The SPOT App requires a SPOT Account with an active SPOT satellite device and a Wi-Fi or data connection to view your SPOT messages.
